

Life. Science.

# We have quality of life down to a science.

Central Wisconsin — our communities, culture,  
natural environment and people make us special.

## CENTERGY

Life. Science. Connecting to Tomorrow.

## Life here comes with outstanding benefits.

Choosing a new place to move to comes with a host of considerations. Once the practical “business decision” has been made, there remains the whole question of life. Quality of life. Family life. Community life. Lifestyle.

Central Wisconsin is a life-enriching environment, with comfortably sized, clean, safe towns; ready access to recreation, from fine arts to popular events, special attractions and four-season outdoor sports; lively downtowns with historic architecture and thriving retail and entertainment businesses. The place we call home could be the very place you’ve been looking for.

## Experience what many only imagine.

Countless people in high-density urban areas or cookie-cutter suburbs dream of a life without nightmare traffic, constant noise and isolation from nature's wonders.

The people of central Wisconsin live that dream, day to day, season to season. They are accustomed to traditional neighborhoods, well-tended lawns and gardens, front porches, rides in the country, picnics in the park and clean air and water.

A typical day might include a visit to the farmers market for fresh, local produce; downtown shopping; jogging in scenic surroundings; and, frequently, running into someone you know.

## Focused on the most important things in life.

Central Wisconsin gives you a real chance to achieve balance between working and living. We don't sacrifice quality for quantity here; instead, we strive to have both in harmony.

Our riches are many — stable, dynamic economies; robust arts communities; excellent school systems; beautiful parks, lakes, rivers, forests and trails; great public services and roads — and yet, our costs of living and doing business are surprisingly low.

People who move here tend to stay here. They put down roots, make friends, raise families, build futures and become participants in their community and partners in progress. That's what people do when they've found real quality of life.
